

truu.

United forces  
**for a golden  
future.**

  
success plan

## You and truu. Achieving great things together.

**Out of love for health and our planet, we had the idea to produce perfect, purest water.**

Water that is good for people and the environment. That is exactly what has driven the great international success of our premium water filtration systems and made us a strong community. We want to continue this journey with you and carry our vision further into the world.

**For a healthy lifestyle in harmony with nature and financial success.**

*Timo Krause*

Timo Krause, CEO truu GmbH

## Turn your healthiest source into your source of income.

**With your truu premium water filtration system,** you own the only product in the world that simultaneously promotes health and protects the environment. And through the truu success plan, it also opens up strong career opportunities and above-average earning potential.

Through your recommendations, you can let friends, acquaintances and colleagues benefit too, earn good money yourself, and successfully grow our community. As a strong foundation for your success, there is the **truu station bonus** – it rewards you with 55 € every time you let truu prospects try truu original water from your system for 1 week.

We have also developed further effective bonus, incentive and booster systems so that everyone who commits to the good cause can **secure an attractive income in the shortest possible time.**

Take your chance.  
**Make it truu.**

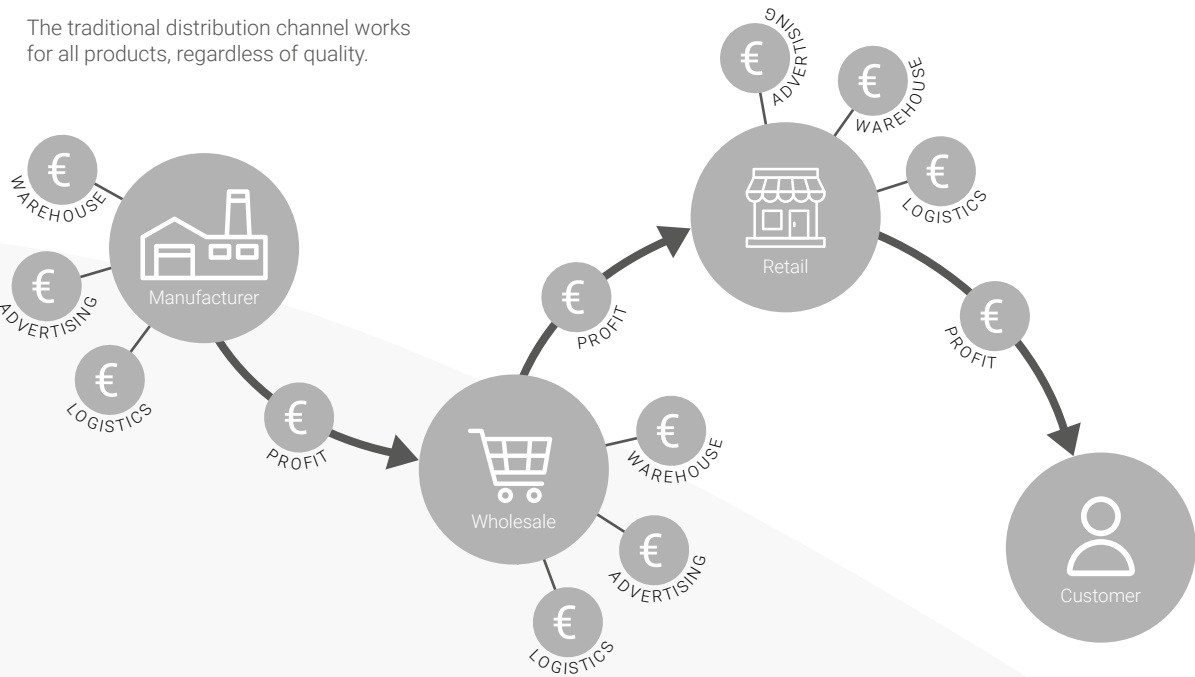

truu station  
**bonus**

# Traditional distribution channels. Margins at the customer's expense.

**What makes tru** so special is revealed when you look at companies with traditional distribution channels. Along the way from wholesale to retail to the customer, multiple costs arise. The company must advertise on many channels. In wholesale, costs arise from warehouse rent, electricity, logistics and staff. The same applies to retail.

**The result is enormous price markups** that are passed on to the customer. Examples: a US smart-phone costs 5,000% of production costs by the time it reaches the customer. For coffee, it is 2,000%. **And for bottled water it is even 5,000%. That can't be tru.**

The traditional distribution channel works for all products, regardless of quality.

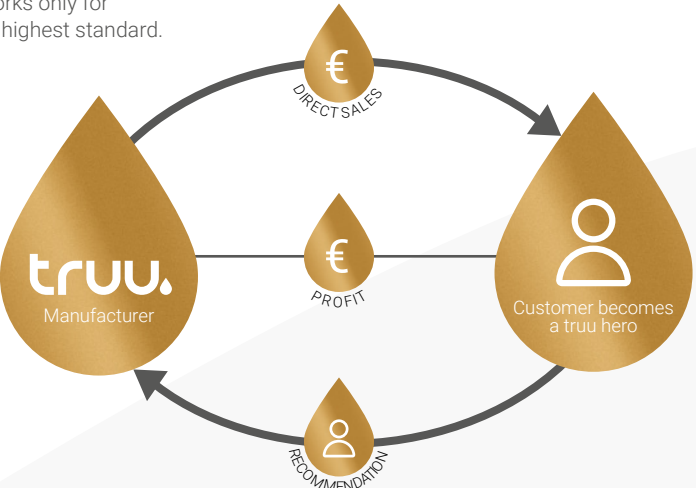

# Honest. Convincing. Successful. Person-to-person sales.

**tru is unique.** Thanks to our high-quality, award-winning products, our satisfied customers are always happy to recommend us. It is exactly on this basis that we have built a strong sales system – and the results speak for themselves: **Over 33,000 enthusiastic customers speak for themselves – and for us.**

**Word-of-mouth recommendation** is one of the oldest sales channels in the world and as simple as it is brilliant. Through this, we generate more profit – and we share it directly with our recommenders.

**The result: a lower end price and planned success – with the tru success plan.**

The direct sales system works only for top-quality products of the highest standard.

# Your career status: truu heroes bronze.

**Together we have already achieved a great deal:** To date we have saved over 102 million plastic bottles and provided more than 30,000 families with healthy water. This motivates us to keep going. And with every hero that joins, we achieve even more. **We're glad you're part of it!**

# Recommending pays off. For you and the planet.

**Make sure everyone learns how important water is for health.** And help do even more good for the environment. This way you contribute to making the world a little better – and earn good money at the same time. Our **unique truu expert reward** helps you with this – the premium foundation for your income. Complete the expert training and become an expert on truu. **Start as a consultant (expert in training) with solid advantages:**

- **Receive €110** per closing during training
- Benefit from the experience of your **supervising expert** as a trainer
- **Receive €220** per closing as a qualified expert

## truu power booster. Reward with a system.

**Roll up your sleeves.** Raise your income. We know: our truu heroes are always fully committed. And because effort must be rewarded, we developed the truu power booster. **It enables you an additional income of €400.**

## Full steam ahead for your income.

**How it works:** Once you have completed your Expert training, you are eligible from just 16 booster points per month. The payout occurs after qualification in the third month.

truu power  
**booster**

## truu world booster. Worldwide share with a system.

**How professionals profit:** The truu world booster gives you a share of worldwide revenue and rewards your performance. It works simply: For **every system sold worldwide, €55 plus 2% per filter change** revenue go into a booster pool. You receive 2 booster points per sale.

## Shared revenue is your profit.

From just 12 points/month you participate in the truu world booster. The payout is distributed proportionally by points among all qualified partners. At 12 points the booster averages approx. **€400 – €1,100.**

truu world  
**booster**

As unique as truu:

| navigator               | 1     | 6            | €330.00            | €990.00            | -                      | -                  | -                         | -                  | -                         | -                  | 1,320.00 €            |   |                  |                        |                                 |

The power of duplication.  
Multiply yourself & your income.

On average, you earn from each of your experts with 8 sales between €880.00 and €1,100.00 depending on your level. It adds up:

Number of your experts  
x approx. €1,000.00  
= your passive income, permanently month after month.
